

RWANDA MUZO WS WASHED GRADE A1

Although Muzo is the smallest of Emmanuel Rusatira's washing stations, some of the finest qualities are produced here. Fully washed, honeys and naturals are processed at Muzo WS in close cooperation with the Muzo Cooperative. Muzo is located on a mountain slope in the hilly region of Gakenke District, where cold air is blown up at night, ideal for the coffees on the drying beds. The rich volcanic soils, the high rainfall and the cool temperatures in this area create fruity, sweet and round cup profiles.
